

DRUPALCAMP GHENT

23 & 24 NOVEMBER 2018

Generously hosted by HoGent

A new edition of DrupalCamp Belgium and this year we decided to visit **Ghent**, the startup center of Belgium.

We expect to have around **300 attendees** throughout the two days from the organizing region's countries. With our affordable tickets, starting from € 15 for early birds, which includes lunch, snacks and coffee, we are giving everyone the opportunity to join us in the heart of Europe to celebrate Drupal for two days together. It's a good opportunity to **stay tuned** to the latest things that are happening around the community and the project itself. The most influential speakers from the community will come and share their experience, so you will get the best information first hand. You will also have the chance to **present yourself to Drupal developers** in the region, so if you are looking to hire talented Drupalers, this is the place to be!

Serving as an Official Partner of DrupalCamp Belgium will also increase the equity of your brand as a company or organisation that supports one of the fastest-growing open source software communities in the world. Whether you're new to the community, a long term member, or are just curious to see what all the fuss is about, we have a place for you. We've designed the sponsorship packages to provide **highly targeted branding, lead generation and talent recruitment** at a price point which makes sense for your company. DrupalCamp is a non-commercial event and sponsorship is vital for our success. The event is organized and run entirely by volunteers, but there are obviously costs to be covered.

Below you can find an overview of the sponsor packages we put together, along with information about what you can expect in return. Note that the number of packages per level is limited to provide maximum value, and will be served on a "first come - first serve" principle.
